

September 27, 1939

Mr. E. G. Nielsen,
Bureau of Reclamation,
Federal Building,
City.

Dear Mr. Nielsen:

I find that I neglected to answer your letter of September 15 - or rather confirm the statement I made by telephone to you in answer thereto.

The Scofield reservoir, following its failure in 1928, has been without a spillway and considered unsafe, for which reason its capacity was limited first to 20,000 and finally to 30,000 acre-feet. There has been no change in the status of the reservoir to this date.

Yours very truly,

T. H. Humpherys
STATE ENGINEER
